

InterContinental Toronto Centre: An Overview

Set in the heart of Toronto's financial, theatre and restaurant districts and designed to fulfil the needs of global travelers, the striking modern architecture of the InterContinental Toronto Centre is a Toronto landmark.

A spectacular \$30-million renovation of the 586-room hotel has resulted in a dynamic lobby and reception area that features bold, dark-wood panels that contrast with a vibrantly coloured glass mural by artist Stuart Reid. The spacious guest rooms and Azure, the hotel's gourmet restaurant, have also been transformed resulting in exquisite, contemporary décor.

In addition to its stunning architecture, The InterContinental Toronto Centre boasts state-of-the-art facilities and amenities. Club InterContinental — 90 beautifully appointed rooms and suites, a private lounge, and boardroom, spread through three floors — provides an exclusive retreat for the business traveler.

Why did InterContinental Hotels & Resorts, the world's leading hotel brand in the luxury segment, select Toronto for a multi-million-dollar refurbishment?

“This is the financial capital of Canada and a vibrant, multi-ethnic city,” explains Renaud Payette, general manager of the InterContinental Toronto Centre. “As a major player in the fields of both arts and commerce, the city is increasingly drawing more sophisticated travelers from around the globe.”

“Toronto needed an urban, centrally-located upscale hotel inspired by the boutique culture. A more significant presence by InterContinental Hotels & Resorts was simply a natural evolution.”

Payette says what really differentiates his hotel from the competition is the service – the staff's personalized attention to every guest's needs and a commitment to offering an opportunity to experience the city in a unique and memorable way.
